DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 1 – 5, 7 – 9, 18 - 19 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by U.S. Patent No. 6,215,858 (Bartholomew et al.).

Note Figs. 5 and 6 and Col. 15, line 1 – Col. 16, line 57, Col. 17, lines 13 – 62, Col. 18, line 40 – Col. 19, line 54 and Col. 20, line 61 – Col. 22, line 14.

With respect to claim 2, note IPs 535 and 537. Note also, Col. 35, line 7 – Col. 37, line 4. In addition, note example 1 in Col. 37 – 38.

With respect to claim 4, note Figs 8 - 9 and 12 - 13.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 6 and 20 - 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bartholomew et al. in view of U.S. Patent No. 6,374,102 (Brachman et al.).

Art Unit: 2642

Bartholomew et al. teach the claimed method as discussed above, except for the multiple call forwarding numbers. However, as shown by applicants comments in the Amendment, follow me services are well known in the art. In addition, note Brachman et al. at Col. 71, line 44 – Col. 72, line 41. It would have been obvious to one of ordinary skill in the art to have provided the Bartholomew et al. method with such multiple call forwarding numbers as taught by Brachman et al., as such would only entail replacing one well know forwarding scheme for another.

Response to Arguments

Applicant's arguments with respect to claims 1 – 9 and 18 - 21 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

U.S. Patent No. 5,333,173 (Seazholtz et al.) - note Figs. and Abstract.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
